A lot of bloody violence (for those who like bloody violence). \* It's not completely brutal and bloody. Owen Smith is intense, but with a mortal panache and a road underestimated with one-liner. And this is the whole plot you need to know. I don't conceive this movie, probably the first thing to throw out the window was the subtlety. But actually the film turned into a fairly decent actor, even if the action sequences were above the upper part - way above the upper part - and yet has maintained my attention - despite some violence worthy of crumbs - in reality I was invested in superficial two-dimensional characters. This film was more like an action movie on steroids, rather than a straight parody. A moment arrives when a guy stoves and gets tired of stories and eloquent exposure. But try it. The protagonists of Shoot 'em up are two actors who, to move forward with their past works, substantially slam here. Unfortunately all the remaining humor is damped. Maybe that's why I had more hopes for this movie. I hated Sin City but I like this, then go to the figure. Wicked, Hertz is all. I remember feeling relieved by the fact that Shoot 'em Up has killed what would have been a trend of junk action movie. Clive Owen is completely memorable. For shoot 'em up. I loved both. Almmen, even if you hate the film, find the scene in which Clive Owen complains of another pilot not using the turning signal of him. I do not know. I think Clive Owen is one of the great undervalued, serious or comical, and he deserves a place at the table with Jason Statham, Matt Damon, or even Christian Bale. It's a short film - turn around an hour and a half - but you come to you in absurd, frantic, elegant, elegant action barrel torrents. Shoot the others like Owen, Giamatti and Belluce - on a whim and during short breaks from prestigious ivory merchant photos - decided to go around with the camera and somehow ended up with this action of bullet-riddled, tong-in-weading film. Shoot 'em up is without problems, in a violent subversive way. The film includes things like the nuances of plot and the work of the character in favor of arriving to the ASAP action pieces. Expect a little oath, lots of bloody violence, and some strange sexuality. It is brain-free, tasteless and highly incredible. If you are not yet picky, it is still worth a watch punishment.2 people found this parking available. It seemed that it would be a self-conscious and heavy parody of the kind of action, which would have been Leaden and Unfunny. You can tell the reviews here as the public vision is polarized. Monica Bellucci is fantastic. \* Quality fun dialogue. \* Great Music.The bad things \* Weak story, with lots of strange scanning strokes. The questionable things \* as mentioned above, is incredible and above-top. Don't worry me, I liked it. From pure power and composure of iron, Owen makes you buy blister sequences even when he shakes his head to the gross environment of everything. Smith continues to lay the damage of the comic proportions. Clive Owen plays it well with the anti-okay character of him. Some of the killings are completely stupid and ridiculous. What we stayed is a film with a title that died descriptive. There is also a compassion and romance even to it (after all, all this thing concerns a boy who protects a child from the damage). \* The style of shooting is quite good. The film opens with a sequence that will scroll through your juices, but, therefore, supports the high pace octane. I do not know. Paul Giamatti, whose Mr. Hertz seems to work in an ever-increasing state of aggravation, is wonderful again, this time in a part we are not used to seeing him play. Its screen intensity is second only for the similar donzella. But they take any credibility, there is a village with a vegetable. And she's nothing. Keep an eye on a funky sex scene that further emphasizes the graticule, grapicane, feel of the film even as it succeeds in one-upping Crank's own boisterous display of lewdness. For those who prefer their story fleshed out and fully explored, beware. If not, you'll hate it. You might despise it, and that would be understandable. I loved it. It careens onto the screen like a Frank Miller graphic novel come to life.The meager plot (and the \*\*plot spoiler\*\* alert): Carrot-chomping Mr. Smith (Clive Owen, all cool & stoic) comes to the aid of a pregnant woman being pursued by a pack of assailants. I recognize the artistry behind it but don't actually like the movie. The scene involving the stairwell is just simply the most amazing action scene I think I've ever seen in a movie.Will you like the movie? In this case unfortunately, he couldn't make up for subpar writing and seemingly lackadaisical editing, which left all the campy one liners without any comedic punch.Still, as much as I seem to be panning it I still had a good time. It is darkly humorous. If you like shoot 'em ups, you'll like Shoot 'Em Up. It's a great concept and the gun fights, more or less a spoof of the genre, are laugh out loud hilarious. Shoot 'Em Up is a guy's flick, thru and thru. And, yet, the film does manage to preserve coherence and cohesion. Dude does things with carrots that I'm positive God never intended for carrots to endure. endure.
